

Bohemian Temperature Wrap

#BohemianWrap2019

Pattern Version 3

a design by

Esther Dijkstra

Version Control

Version 1 – Original.

Version 2 – Correction stitch count row 5 and 7.

Version 3 – Details improved in temperature/color table.

Materials

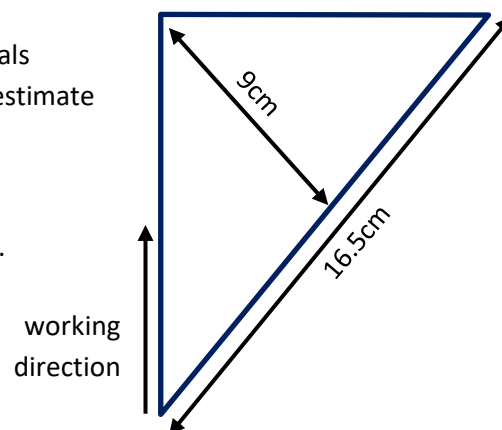

8 x Scheepjes Cotton 8 (100% Cotton; 170m/50g). Yarn amounts per color will depend on your color placement and gauge.

3mm (US D) hook

Gauge & Size

Make a swatch using 35 rows of the pattern. Measure the two diagonals as shown in the image. Multiply both dimensions with 10.5 to get an estimate for the size of the wrap in cm.

Based on my swatch with 35 rows which is 9cm x 16.5cm, my final wrap will be about 95cm x 175cm (37" x 70") in the orientation of use.

Abbreviations

Please note that US Crochet Terminology is used for this pattern.

- st – stitch
 - ch – chain
 - sp – space
 - sc – single crochet
 - *...; – repeat from * a given number of times
-

Color Placement

Use the color for each row according to the temperature chart guide and the recorded temperature of your location of choice. Use the empty color chart provided to keep track of the temperature in your home town and the color that corresponds to each row.

Note

The number of single crochet stitches increases every second row. In the temperature recording table, I give the stitch count for each row.

In the pattern a ch1 is used to turn. With the turn it is assumed that you are using the same color. If you need to change color because of a change in the weather, use the last yarn over of the single crochet of the previous row to change color.

Color Charts

Bohemian life is all about not following the rules, and what is freer than a rainbow!?

Chart

Finishing

Weave away all remaining yarn tails. Make 3 colorful tassels using all the remaining yarn and attach them to the corners of the wrap. The tassels will be as multicolored as your wrap. Block your wrap for best results.
