## *Notes and color placement*

The coaster is made by making two panels, and then joining the two panels with the cork coaster in between.

From Round 3 onwards, work the odd rounds in the same color, in the pattern I say Color J (Black), but you can use any color you like. The reason for using the black yarn is because this is the color which has the most left over, and because it gives a dramatic effect.

Randomly use the other 9 colors for the even rounds.

The gauge used in this pattern results in the coasters being 18cm/6.5" at the end of Round 17. If your gauge is larger than mine, you can stop earlier. For example, if your coaster is already 17cm/6" at the end of Round 14, skip Rounds 15 and 16, and then work Round 17 with fewer stitches. Finally, finish the coaster in a similar manner to that given in the pattern, but again with fewer stitches.

### Finishing the coaster

The halves are approximately 18cm/6.5". They will be stretched over the cork inner to become 19cm/7" when finished.

Place the two halves of the coaster with their back sides facing each other. With Color J (Black), work a sc in each stitch of both halves, joining them together. When the join is about half way, insert the cork in between the two halves, then complete the rest of the join. Close with an invisible join. [120 sc]

### Edge (optional)

Work a crab stitches in each stitch of the joining round. Using a different color will make the edge stand out. Attach with a ss in any st, crab stitch in next st to end, finish with crab stitch in same stitch as which already contains the ss. Fasten off and work away yarn tails.
